- Easily find content relevant to your work activity
- Helps you identify barriers and safeguards to improve safe working
- Easy to share content with your team via email and social media
- Get updates when new content is published
- Available in 10 languages
- Developed specifically for frontline operators, contractors and supervisors

"It is a great example of industry sharing lessons learned for the benefit of not repeating the same mistakes."

Toolbox user

"Very useful lessons to be learned... I learn and share in HSE talks."
