Become a G+ Associate member

In partnership with energy institute

The G+ Global Offshore Wind Health and Safety Organisation (G+) comprises the **biggest offshore wind farm operators globally**.

The primary aim of the G+ is to **create and deliver world class health and safety performance** across all activities in the offshore wind industry.

As the leading global authority on health and safety issues in the offshore wind industry, the G+ is committed to engaging with all key stakeholders in order to **find solutions to the safety challenges** that offshore wind projects face.

Membership fee

- The annual membership fee for G+ Associate Membership is GBP 17K.
- It includes EI Technical Company Membership (see overleaf).

G+ Associate membership

- Become part of an open network of health and safety experts, professionals and stakeholders and help to provide health and safety leadership and direction to the industry
- Attend the G+ Annual General Meeting with members of the G+ Board of Directors
- Attend G+ Focal Group meetings and propose agenda items for discussion
- Contribute to G+ work programme
- Actively participate in G+ working groups to deliver health and safety products for the industry
- Contribute suggestions for topics and presentations to be included in the G+ 'Safe by Design' workshop programme
- Gain industry recognition as an Associate Member on the G+ website
- Includes Technical Company Membership of the EI (see overleaf for benefits)
- Discounted access to the EI's good practice resources

In partnership with energy institute

The Energy Institute (EI) offers secretarial support to the G+. It is a not-for-profit registered charity, which exists to **accelerate a just, secure and low carbon energy transition.**

EI TECHNICAL COMPANY MEMBERSHIP

Industry leadership

- Benefit from the EI technical programme outside of the G+ offshore wind programme, in the areas of human and organisational factors, process safety, health and environment.
- Opportunity to sponsor high profile industry events, such as the EI Awards and dinner, or numerous conferences throughout the year.
- Enhance your reputation in industry and raise your profile.

Access to specific technical committees

- Valuable means of networking and sharing knowledge informally with peers.

Access to knowledge and industry information

- A global licence to access EI publications within the areas of offshore wind, human and organisational factors, process safety, health and environment. EI good practice guidance is used internationally – in 2026 there were over 22 500 downloads of EI guidance by the EI's Technical Members, across all global regions where the industry is active.
- Easily transfer to the EI Knowledge Service to access 90 000+ wider industry resources, including news, abstracts, data sheets, contacts, events, periodicals, and more. All digital content available through the Energy Matrix and EI Collections is available to download.
- Access to monthly Energy World magazine free of charge.

Professional development of staff

- All employees of Technical Company Members are eligible for complimentary membership as an Associate Member (AMEI), through the EI Membership for Employees scheme. This will help enhance their understanding of the energy system, whilst leading them on the path to professional qualifications, including Chartership.
- Support for individual staff on application for professional recognition as Chartered engineers, energy managers, scientists or environmentalists is available from the EI.
- Access to technical workshops, conferences and training as speakers and delegates significant discounts on listed prices.
